DIRECTORY CENSUS SHOWS BIG GAIN

Calgary Claims Population of Over Seventy Thousand—Large Increase in Two Years.

Calgary, Alta., Nov. 11. — The seventh issue of Henderson's Calgary city directory, which has just been issued, marks an era of unparalleled progress and development recording, as it does, an abnormal increase in the population since the last issue.

The 1911 directory, after a most careful enumeration of the city, computed its then population to be about 54,687. The publishers in the latest issue now estimate Calgary's residents to number 73,759, this showing an increase of over 19,000 souls for the year.

An analysis of the material which has guided them in arriving at this estimate will indicate that in every class of business, manufacturing, industrial or commercial, each have added their respective proportions toward building up these figures.

The following extract from the 1912 directory conclusively records the onward march of Calgary toward the 100,000 mark in population.

	Individual names.	Firm names.	Estimate of pop.

N[illegible], 1912	...32,782	2,272	73,759

Multiple used 2,260.

The 1912 directory contains a neatly compiled street guide, recording Calgary's expansion in the increased number of householders returned. The building permits expected to approach [illegible],000 for the year qualify the extraordinary increase. In the classified section, indicating the number of new business firms and trades for the year, is recorded the very large increase of 30 per cent., a magnificent advertisement as proving the attractions of Calgary from a business vantage.

GREATER TORONTO

To-day Toronto's boundaries are extended to include North Toronto and Moore Park. The former joined the city at midnight Saturday, and the latter at midnight Sunday.

The population of the city is increased, according to the police census, from 425,407 to 432,262.

Its acreage is increased from 17,920 to 24,275.

Its area is increased from 28 square miles to a little more than 38.

The latest police census of 425,407 corresponds with the rece

According to the figures made available to-day, Toronto has more than double the population which it had at the beginning of the present century. It is half as large again as it was in 1907. In other words, it has added 50 per cent. to its population in five years.

This is the thirty-seventh annual edition of Toronto City Directory and is again presented with the assurance that it will compare favorably in point of completeness and correctness with former editions.

This year we present our patrons with a copy of our City Map, revised up to date. We at first supposed that we would be able to revise our Map of three years ago, but since then so many street changes have been made, so many new streets laid out, with annexations of suburbs, that we found this impossible. Our present Map, therefore, is an entirely new one, revised up to the present time.

POPULATION

This edition contains by actual count 161,364 individual names, exclusive of firms, corporations, etc., an increase of 14,134 over last year. We estimate the

Population of Toronto as 443,751

While this is in excess of that of the Federal Census taken la summer, it should, however, be remembered that our method of enumeration is more thorough than theirs and should, therefore, be more accurate.

The City contains 1,364 streets and 81,321 buildings of all kinds, as shown by the Street Directory, an increase in the latter of 4,790 over last year. Of these 3,789 are shown vacant, as compared with 3,724 last year. This increase, of course, includes houses and buildings in course of construction.

The Births, Marriages and Deaths in Toronto for the past six years are as follows:

Year	Births	Marriages	Deaths
1906	5,985	3,107	3,961
1907	6,715	3,635	4,563
1908	7,945	3,413	4,630
1909	7,839	3,905	5,188
1910	9,011	4,293	5,459
1911	10,050	5,312	6,328

The different branches of Trade in Toronto are shown by the following tables:

1909	1,437,700,477
1910	1,595,954,254
1911	1,852,397,605

The duties collected at the Toronto Custom House are as follows:

1911	$15,540,630
1910	14,077,186
Increase	$1,463,444

74-76 Church Street, January, 1912.

The following figures are the Post Office earnings for both Montreal and Toronto, showing that the latter continues ahead of the Eastern metropolis:

Year	Montreal P.O.	Toronto P.O.
1906	$806,140.30	$1,194,382.16

Where "Office Specialty" Filing Cabinets are Made.

This is a splendid view of the big "Office Specialty" Factories at Newmarket, Ontario.

The total space occupied by the buildings, lumber yards, stables and water-power is over twenty-two acres. The Factory floor space is about four acres. The large building on the right is used entirely for making Steel Filing Cabinets. The other buildings are used for the manufacture of Wood Filing Cabinets—Standard Sections, Half Sections, and Cabinets of Solid Construction.

The complete "Office Specialty catalogues are very interesting. Copies on request—phone or write.

Steel Sectional Filing Cabinets

For Fire-Proof Buildings

PUTTING Wooden Office Furniture into a fireproof building is like putting kindling into a stove, the kindling when ignited burns, but the stove is not harmed.

Why not have Steel Filing Cabinets which are in every way as convenient as wood, wear longer, do not swell, shrink, or warp, and are pleasing in appearance. Sectional Filing Cabinets can be purchased as required, one at a time, and placed in one stack.

This stack of Steel Filing Cabinets consists of seven different sections, five of which are for filing papers, and the other two are the Top and the Base necessary to complete the stack.

Ask us to send illustrated catalogue giving prices.

HALF SECTIONS Faultless Little Filing Cabinets

FOR the office in a small business, or the small office in the big business, no other form of Filing Cabinet is half so convenient or useful.

Half Sections are made with devices to take every size of business record. Half Sections are the same depth, but only half the width of Standard size Cabinets. The Vertical Section has only one Vertical File Drawer instead of two, and other sections are proportionately smaller.

Half Sections have wonderful capacity in spite of the small space they occupy—16½x17 inches floor space.

Half Sections are made in choice Quarter-cut Oak, finished in a dull golden shade with oxidized brass trimmings.

We have prepared an interesting folder showing nineteen different Half Section Filing Cabinets, some of which may be the solution of your filing problems.

We will be glad to send a folder to you either by one of our representatives or by mail, if you request it.
